

eSTART Notification – Training Registration

REGISTER FOR TRAINING: eSTART

We're excited to announce that training registration for the **new and enhanced version of eSTART** is now open!

Training is specifically offered for Managers and Leave administrators and will be delivered in multiple phases to support a successful transition to the updated system.

The initial training sessions will follow a demonstration-based format, providing a visual overview of the new features, functionality, and workflow enhancements within eSTART. These sessions are designed to familiarize users with the system and prepare them for future training opportunities.

The online training hub can be reached by visiting the <https://estartinfo.alabama.gov/communications/> page or by using a link at the bottom right of the <https://sbsaptraining.alabama.gov> training home page. Please share with your entire agency since it includes both manager and employee training.

Additional training sessions will be offered to provide a more hands-on learning experience. Our in-person classes will allow participants to practice key tasks and build confidence using the system. Please sign up for upcoming training sessions by visiting the training portal and selecting the course and date that works best for you.

<https://sbsaptraining.alabama.gov/Account/Login>

To allow for the best learning experience and engagement, each training session allows a maximum of 29 attendees, so please complete your registration as soon as possible to secure your preferred session. If you have any questions or need assistance with registration, please contact the eSTART Help Desk.

Thank you for your participation and commitment to learning and development.

Information:

- Please continue to check the eSTART website for future updates and important information at estartinfo.alabama.gov.

The eSTART Help Desk is available to assist with your questions.
